		CONFIDENTIAL 25XI	
25X1		hefore the numerical system was adopted.	
25X1	, ,		
	(c)	In 1951 ZMB2 was enlarged and put in charge of construction projects at Zakopane, Sandomierz, Novy Sacz, Tarnov and Bialucha. These projects	
25X1		had been started earlier. About 30	
25X1		employees were added at that time.	
23/(1	(a)	The construction project at Czchow consisted in maintenance work on a dam. It carried no numerical symbol. Administratively it was part of the Nowy Sacz project.	
	(e)	The construction at Niedomice and Zabno was scheduled to begin during	
25X1		1953. The Katowice Union of Wodno-Inzynieryjne Budownicta Przemyslwego was also involved.	
25X1		these two particular projects were considered very important and	
25X1		came under the jurisdiction of the Tarnov construction project.	
	Cons	truction Projects	
6.		2 was first put in charge of construction projects at Biezanov and	
	ZMB2	ow. Then as one project was completed, others were taken over or begun. does no agricultural construction work. Its projects are industrial,	
	invo etc.	lving hydraulic engineering: canal construction, pipe systems, dams,	
25X1 ⁷ •	"Bud	ova Plaszow:	
25X1		This is a canal or irrigation system ideated in the ction of Plaszow-Rybitwa. a ditch about eight meters vide,	
	1111	ed with water. That ditch was the first phase of construction. In	
25X1		ng 1951 wooden poles were being draven into the bottom of the ditch by trical machinery. In autumn 1952 only the embankment was visible.	
		sort of machinery known as 'larsens' (7), imported from Czechoslovakia, needed for this project and was impossible to import during summer 195%.	
	The :	Plaszow 'collector' (kolektor) was linked with that of Syfon at the maing of 1953.	
	igno	rance of technical ferms. The manager was ing Wiadyslaw Terajevicz	25X1
		1 summer 195?, then fnu/ Dill.	
8.	"Bude	ova Syfon: Started autumn 1951. It is a continuation of the Pleasow the bed of the Vistula River.	
25X1	Ĕ	The Syfon construction was completed in the winter of 1993. Friends	
25X1 25X1		ine received awards at the completion of the project. The manager Ing fru Homanski.	
9.	"To r	reach Syfon from Krakov one takes Tram No 7 toward Grezgorzek. That	
		runs as far as the factory formerly called Middenievskiego. Then one sacross railway tracks leading to Nova Huta, in the opposite direction	
	to th	me Grzegorzek railway station, which is located on the Vistula near municipal slaughter house. The distance from the last stop is between	
05V4	three	e and 3-1/2 km. One can shorten the trip by going through the closed	
25X1 25X1	area	of a military unit, but that is forbidden.	
25/1	"Bude	wa Borek Falecki: lt is	
	locat	ed about two km from the Solvay factory area, to reach the office one	
25X1	for c	through the factory premises. Solvay maintains several reservoirs themical waste products formed during the production of soda. In	
05V4		the foreman, find Wojcik snowed me one of these reservoirs and told not there was no use for the thick white waste liquid.	
25X1	in sp	ring 1952 some of this Solvay waste leaked into the Vistula and	
		med a great number of fish. Many people talked of the dead fish float- on the water. The manager is Ing Kazimierz Rostalski.	•
